## GETTING STARTED

The CreditCharge™ will arrive with a partial charge. It is recommended to charge the battery to 100% upon arrival and after each use. When not in use, store in the included Microfiber Pouch.

## CHARGING THE POWER BANK

1. Plug the included 24" Type-C to USB Charging Cable into the Type-C Port.
2. Plug the opposite end of the Charging Cable into a USB power source (not included). The CreditCharge™ will begin to charge and the 4x LED Indicator Lights will blink while charging, indicating the current battery level.

## RECHARGING A DEVICE

- A. First, determine which charging connection the device is compatible with:
- B. Micro, Lightning, or Type-C.
- C. **If Micro or Lightning**, use one of the built-in cables (*pictured below*).
  1. Locate the appropriate cable by removing it from the Built-In Cable Slot.
  2. Plug the Charging Adapter into the charging port of the device.
  3. The device will begin to charge.
  4. If the device does not begin to charge, check the connection and the battery level of the CreditCharge™.

- D. **If Type-C**, use the included 4" Type-C Charging Cable.
  1. Plug one end of the Type-C Charging Cable into the Type-C Input/Output.
  2. Plug the other end of the Type-C Charging cable into the charging port of the device. The device will begin to charge (*pictured below*).
    - If the device does not begin to charge, check the connection and the battery level of the CreditCharge™.
    - **TIP:** The Type-C Cable can be folded backwards to simplify charging & carrying the device.
